

Buckinghamshire & Milton Keynes Fire Authority

The Authority employs 538 people.

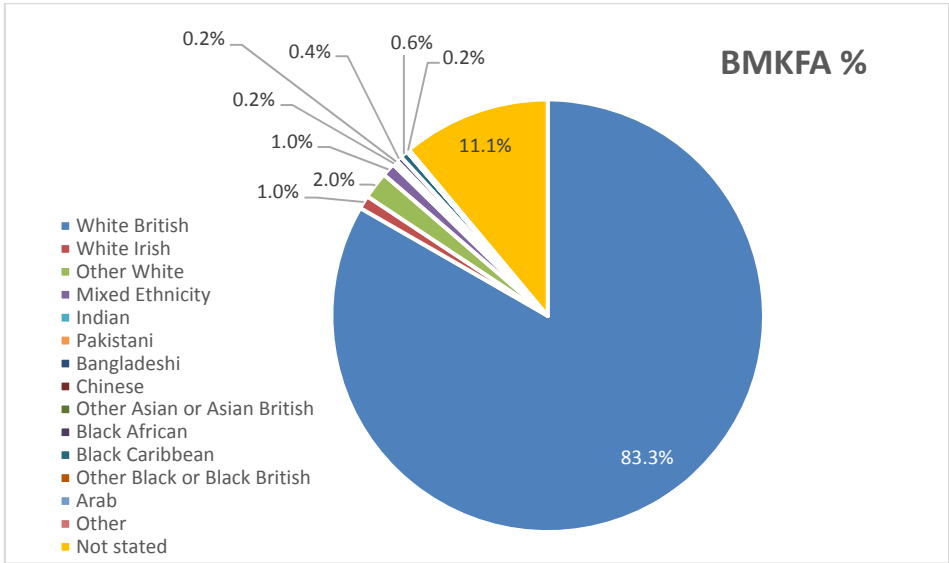

Operational employees make up 78 per cent of the entire workforce.

It is important to note there is low turnover of wholetime firefighters mainly as a result of pension arrangements.

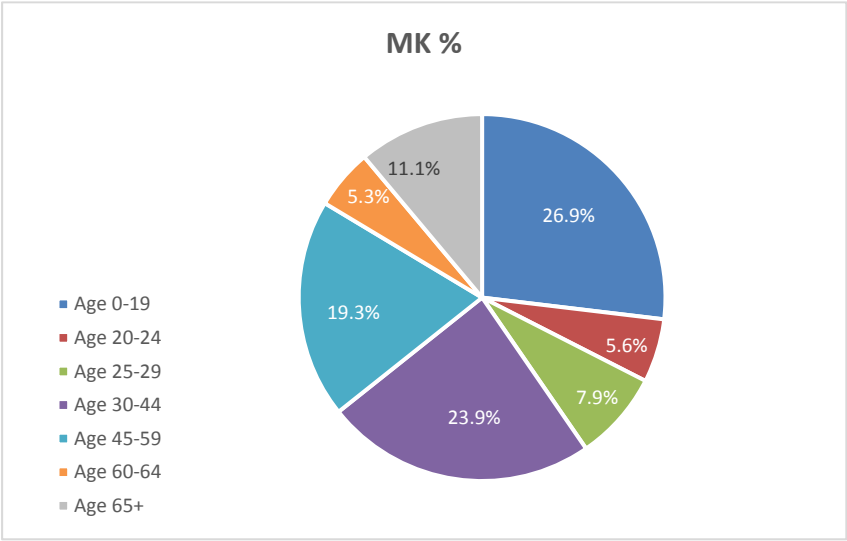

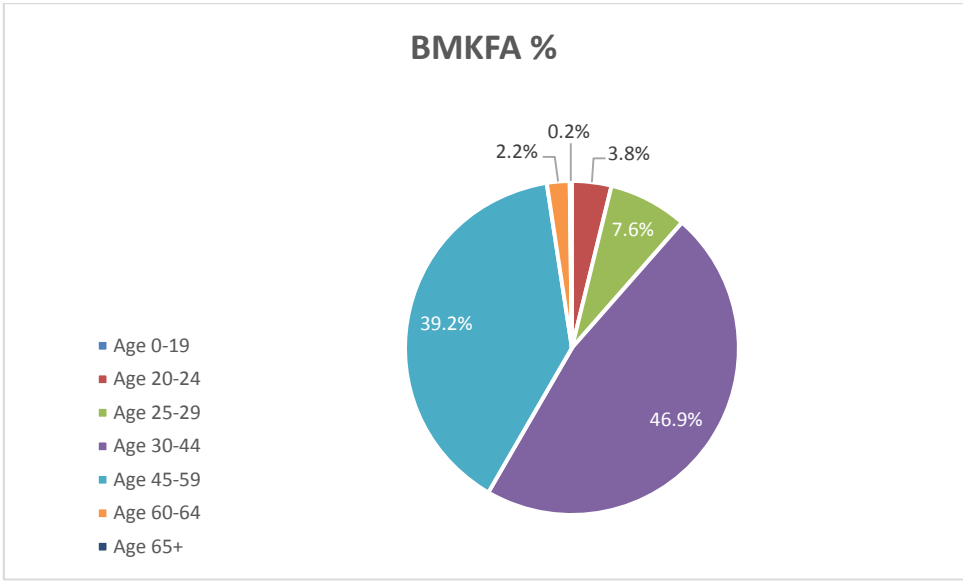

There has been a wholetime firefighter recruitment freeze and a decline in the overall numbers of operational staff employed. As a result of this there has been limited opportunity to recruit; therefore it has been historically difficult to change the composition of the workforce in terms of diversity in order to better reflect the communities served.

The last recruitment for wholetime operational firefighters was in 2009.
